**DETAILED ACTION**

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-15, drawn to an apparatus for scribing, classified in class 83, subclass 879.
  - II. Claims 16-24, drawn to a method of scribing a tile having a step for providing a surface to lay a tile, classified in class 83, subclass 880.

The inventions are distinct, each from the other because of the following reasons:

2. The following claims 25-34 are going to be examined with any group elected. Inventions Groups I-II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case, the apparatus of scribing of Group I can be used without the process of providing a surface to lay a tile.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
